

45. Silted lower Shamalan Canal in Zarist area. 17 Oct 97

46. Darwishan Bridge looking east. Original structure intact.
17 Oct 97

47. Washed out Darwishan Bridge approach looking west. Approach is excavated and ready for gabion fill. 17 Oct 97

48. Lashkar Gah bridge looking east. 21 March 97

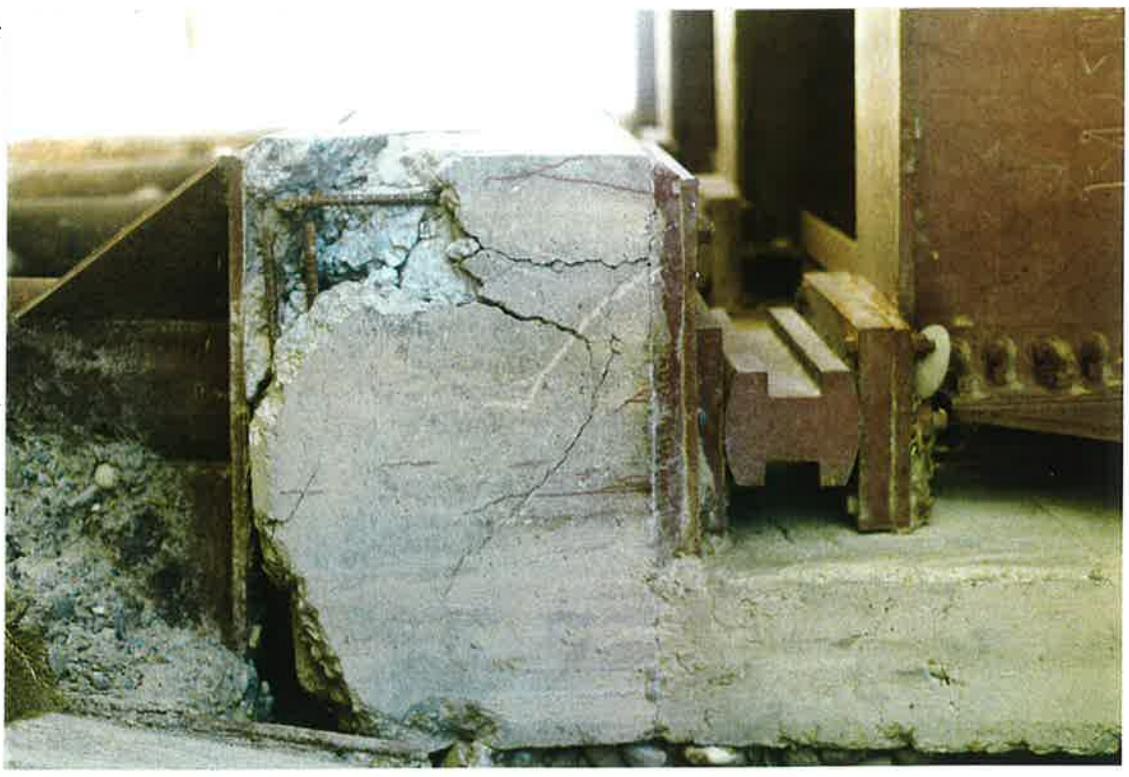

49. West end of Lashkar Gah bridge with cracked beam. Note old container being used as bridge protection from flood flows. 21 March 97

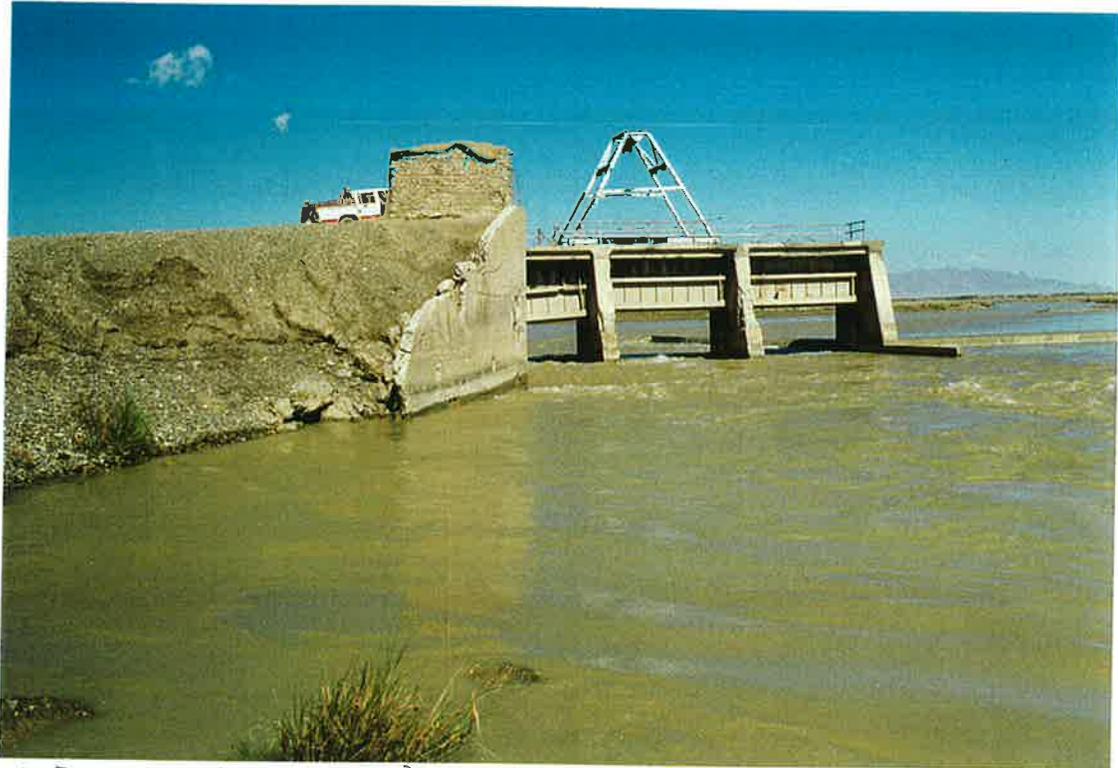

50. Close up of cracked bridge beam. 21 March 97

51. End view of damaged bridge beam of Loskkrabak
bridge. 19 DT 97

52. End view of damaged bridge beam of Loskkrabak
bridge. 21 March 97

53. Diversion structure of Boghra Canal intake off the Helmand River. Note wash out on left, 20 March 97

54. Diversion structure of Boghra canal intake on Helmand River. Note damaged concrete. Gates functioning. 20 March 97

55. Diversion structure of Boghra canal intake on Helmand River from up-stream. Note damaged but functioning gate on right, 20 March 97

56. Gates of diversion structure of Boghra canal intake on Helmand River, 20 March 97

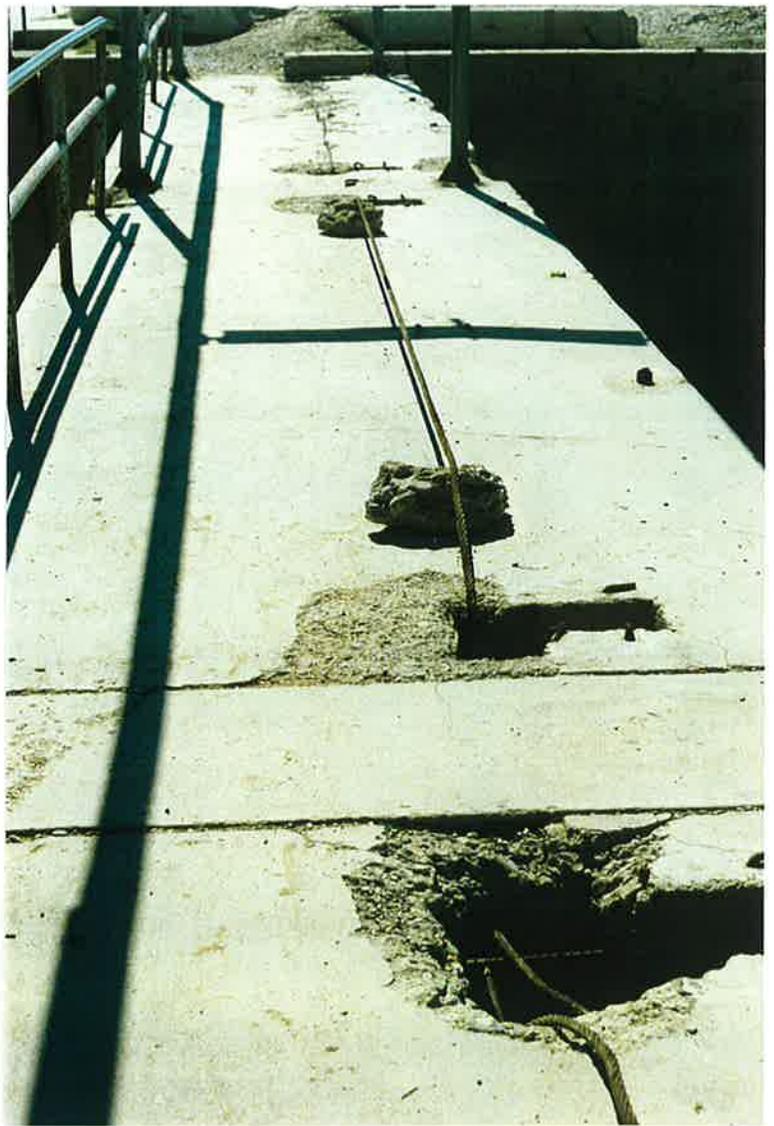

57. Baghra Canal intake structure on Helmand River with 2 gates open. 20 March 97

58. Baghra Canal intake structure on Helmand River with missing gates lift mechanisms. Note failed over-head lift beam. 20 March 97

59. Close up of missing gates
lift mechanisms on Boghra
canal intake structure.

20 March 97

60. Three gates of Boghra
canal intake structure.

20 March 97

61. Washed out left wing of Boghra Canal intake structure. 20 March 97

62. Two gates of Boghra Canal intake structure. 20 March 97

63. Old failed MKA river diversion dike (ca. 1947) on Helmand River
From Boghra canal diversion structure at intake. Dike in upper right corner.
20 Oct 97

64. Close up of old failed MKA river diversion dike on Helmand River.
20 Oct 97

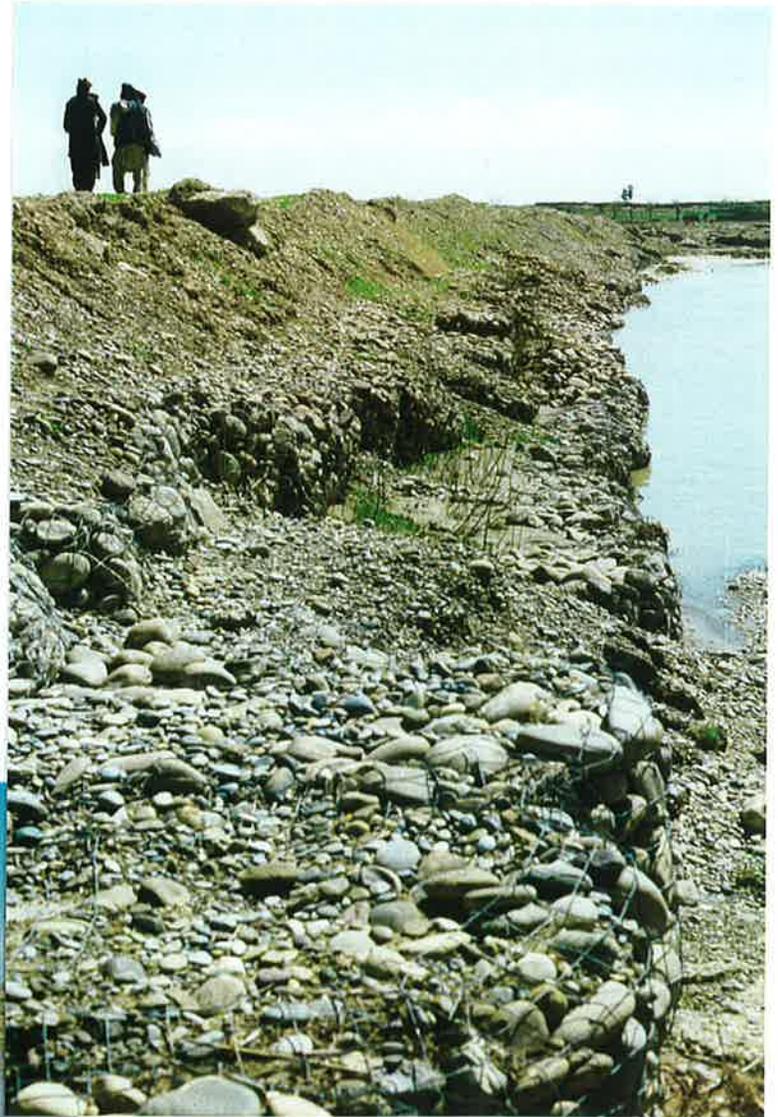

65. Old Failed MKA river diversion dike on Helmand River from north,
20 March 97

66. Close up of old failed MKA river diversion dike on Helmand River,
Up stream (north) side,
20 March 97

67. Close up of old failed
MKA river diversion dike,
down-stream (south) side with
recent repairs.
20 March 97

68. Close up of failed recent repairs to
old failed MKA river diversion dike
on Helmand River from old dike
looking west.

20 March 97

69. Looking north up Helmand River channel at location of old Failed MKA upper river diversion dike (ca. 1947) from Boghva canal intake.
20 March 97

70. Same as #69 above. 20 Oct 97

71. Close up looking north up Helmand River channel at location of old failed MKA upper river diversion dike from Boghra intake. Note large block base of old dike. 20 Oct 97
